MULTI - MODEL
LOGISTICS SOLUTIONS
FOR DRY, LIQUID AND
GASEOUS CARGO

ABOUT US

Trade in the global market is constantly intensifying. Economies are interconnected. With this change and growth in the market, we need to adapt our business model and create solutions that benefit us all.

We, at NOMA INFRA are experts in providing multi-model logistics solutions in carrying dry, liquid and gaseous cargoes, worldwide.

With a global presence in more than 200 locations, our foundation is solid. We build partnerships on trust and exchange. This trust in combination with our experience provides a strong basis for investing in new regions and markets, and this philosophy has proved worthwhile.

STRENGTH IN NUMBERS

OUR VISION

At NOMA INFRA our vision is to achieve operational excellence through highest productivity, by being the most customer-focused, professional and competitive global logistics solution provider.

OUR MISSION

To consistently solve challenges and create wins for our customers by developing the best state-of-the-art logistic solutions, processes and robust systems that are sustainable as well as deliver timely, high quality services all across the globe.

**People, safety
and technology
are at the core
of what we do.**

WHAT WE DO

OUR TANKS

We own special ISO Liquid Cargo Containers to be used for multi-modal logistics. The inner material of these ISO containers is stainless steel and the outer jacket is carbon steel. All containers are made as per ISO standards and are designed and tested in accordance with IMDG, CFR/49, RID/ADR and comply with US-DOT.

Our tanks are insulated with steam heating facility, have pressure valves for top loading and bottom discharge, suitable for all types of liquid cargo.

MODUS OPERANDI

Cargo of tanks are loaded on trailers at plant

Containers are stacked at the siding yard

Containers are loaded on rakes and transported to the plant

Empty containers are moved from the siding to plant on trailers

Empty containers are returned to the siding

Cargo is unloaded at the plant

MATERIALS WE MOVE

We are experienced in the transportation of various hazardous and non-hazardous cargoes. We do end-to-end rail and road movement of Polymer along with virtual warehouse for its stock and sale.

LIQUIDS

MULTI-MODAL LOGISTICS

ROAD

RAIL

NVOCC / COASTAL MOVEMENT

WHY US

1

Movement of cargo is free from pilferage and adulteration. Major damages are prevented because of the tank frame.

2

Our containers can be customized for specialized cargo, as per our customer's requirements.

3

We are licensed container train operators, having an excellent interface with Railway Corporations.

4

We have a fleet of trailers with 2000+ ISO containers that are on dedicated basis.

5

Our drivers are professionally trained and licensed to carry hazardous products.

6

We cater to all EXIM requirements of our customers at highly competitive freight rates worldwide.

7

Shipments are carried out on CY/CY, FOB, CFR basis depending upon requirements, at slot rates negotiated with shipping lines.

8

We have a vast network of agents across the globe.
